

Wealth Protection 2010

Special CD Offer!

On Friday afternoon, April 26th, we came together at the Embassy Suites Conference Hotel in Tempe, Arizona for the 13th annual “Wealth Protection Conference.” It was the beginning of two days of some of the most important and decisive information about your life, your future, your investments and how to make sense of all that is going on now and will be going on in the next few years. Each speaker gave an hour long speech and returned at the end of the conference to participate in the round table.

We started with our “Master of Ceremonies” **Mr. Sinclair Noe**, who is no stranger to our conference. Sinclair spoke to us about how many things in the current system; manufacturing, banking, and home ownership are being destroyed and will continue to be destroyed to make way for the future. Believe me, when we say this to you, after his speech, the tone was set.

Next up to the podium was **Mr. Jay Taylor**, editor of “Jay Taylor’s Gold, Energy & Tech Stocks.” We looked around the room and just about everyone had a pen in their hand, taking notes like crazy as he explained all of the resource companies that he felt would make us a lot of money and why. When you listen to these CDs, you too will be playing it back over and over.

For the Friday evening presentations, we started off with our good friend **Jim Liles**, owner of J.L. Futures. Jim’s explanation of the how, why, when and where’s of the current market’s overall condition, and what we can expect in the future had the entire audience on the edge of their seats.

Our final speaker for Friday evening was **Mr. David Morgan**. David has not been with us for a couple of years and it was good to have him back. David taught all the new uses for silver and told us how this fairly overlooked metal will be moving forward in the not too distant future.

It is now Saturday morning at 9:00AM sharp, and everyone is already in the ballroom and ready to go. Keeping pace was **Roger Wiegand**, editor of “Trader Tracks.” Roger is an amazing trader, and he opened our eyes to the shift currently happening from long term holds, to trading. His explanation was fantastic.

Next up to the podium was a new speaker of ours this year and his name was **Yaron Brook**. He is the president and executive director of “The Ayn Rand Institute.” His speech was about the values of capitalism and everyone in the audience sat up and listened to him very carefully. By the time he was finished the entire crowd was almost sitting at attention to hear more. When his question and answer portion was over the room erupted and gave him a standing ovation. It was something to behold. His speech alone is worth more than the cost of the entire CD set. **You need to order yours now! It’s like getting the other 9 hours of this conference free.**

True vision only comes from results, and **Mr. Arch Crawford**, editor of “Crawford Perspectives” newsletter, delivers as one the countries top market timers. In fact, from October 24th 2007 to October 24th 2008, Mr. Crawford made his clients 145.78% returns on their money. Did your advisors come anywhere close to that? Maybe you ought to own and listen to these CDs for that reason alone.

Mr. Ian McAvity started the afternoon session. Ian is the editor of the newsletter, “Deliberations on World Markets.” We felt very privileged to have someone of Mr. McAvity’s experience with us.

Many of you may know that Ian has been around these markets since the early 1960's. He is one of the founders of "The Central Fund of Canada." This man knows his stuff.

Our last speaker was **Mr. Richard Maybury**, editor of "U.S. and World Early Warning Report." This year we did something we have not done before. We had Mr. Maybury up on the big screen via satellite. It was as if he was right there in the room with us. We all know of this man's intelligence and ability to share with us what is really going on in the world. He is widely regarded as one of the top free market writers in America. His articles have appeared in the Wall Street Journal, USA Today, as well as many other major publications. Mr. Maybury has written 22 books and monographs and has been interviewed on more than 250 radio and TV shows across America. The crowd was amazed, to say the least, at his presentation and at the end of his speech the crowd gave him a standing ovation. It was fantastic. Mr. Maybury does not speak publically very often. But, we were not done yet, for the last hour of this conference we brought all our talented speakers back up to the stage for an hour long roundtable discussion. That session too, was fantastic.

Act Now!!
